Why Not Make it an Issue?
The Kentucky Legislature by postponing the proposition, of so amending the laws of evidence in this State as to make the negro a competent witness, to the 15th of March, has virtually killed, or defeated that proposition. It is generally understood that the present Legislature hesitated to adopt the amendment because at the time of their election the known and expressed sentiment of their people was adverse to it. We are certain a very large majority of the people, now would acquiesce in our laws of evidence being so amended, and to this end we would cheerfully see the proposition brought to a direct issue before the people. The Paducah *Kentucky* and Louisville *Ledger*, sound and able democratic papers, reprehend this "idea," under the view that it would create dissension in the Democratic party. But as the question has no political significance, being purely a judicial question, we don't see why it should effect the party. Both its opponents and advocates acknowledge that it can constitute no test of ones democracy, and the Democracy would neither claim a victory or acknowledge a defeat from the result of an appeal to the people. Therefore let the question, with all the pros and cons, go to the people, and let them instruct their next Legislature, directly.

Peace in Europe.
Public opinion in Europe has settled down to the conclusion that the terms of peace between Germany, and France will run in about the following channel: Germany will demand the whole of Alsace and sixty square miles of Lorraine, the whole numbering four hundred and thirty-seven square miles, including the fortress of Metz. In addition, Germany will also demand the payment of a sum of one and one half million francs for expenses of the war; thirty millions for captured ships, and forty millions as indemnity for losses sustained by German workmen and others who have been expelled from France, and some millions more for cripples and orphans, and others not defined. These are hard terms, and they will look none the less objectionable when William has reviewed his forces from the Tuilleries.

A New Radical Scheme.—The New York *Sun*, Radical, says: "Mr. Hoar, of Massachusetts, is trying very hard to push through Congress his foolish scheme for supplying the whole United States with national school books, national schoolmasters, and national school books. There is no chance of its succeeding, and he ought not to be allowed to waste any more precious time in debate. The growing tendency of Congress to interfere with the local affairs of State needs to be checked, not stimulated, and so monstrous an exercise of power as Mr. Hoar proposes ought to be frowned down at once."

A correspondent of the Paducah *Kentucky* gives the following rules for the management of bright manufacturing last tobacco: "1st. Assort the different colors, leaf at a time. 2d. Assort the different lengths, leaf at a time. 3d. Do not put leaves of different colors or different lengths in the same hand. 4th. Do not prize hard, hand pack bright to bacco in caddies of about 500 pounds each, bright pickled may be prized a little heavier, say 800 or 1,000 pounds to an ordinary sized hoghead; the weight of a common prize beam will make it heavy enough."

Theft of Indictments at Owensboro.—From the *Commercial*, we learn of a strange larceny, which was committed at Owensboro last week. A large portion of the young men of Owensboro had been indicted by the grand jury of the last Circuit Court, for gambling, and the indictments were in the office of the clerk of the court. During his temporary absence, some person stole about thirty of these indictments from his office, which have not since been seen. This is a very effective means of disposing of a case.

Under the present enforcement act eight thousand deputy Marshals were appointed to superintend the November election in the city of New York. If the bill to amend this law now before Congress shall pass, an army of more than fifty thousand of these deputies will be appointed in the Southern States, all armed and paid to regulate and control the elections.

A Conflict in North Carolina.—The Legislature of North Carolina has passed an act providing for the election on the 13th of April of delegates to a convention to amend the Constitution of that State. The act requires that the Governor shall issue his proclamation commanding the sheriffs of the several counties in the State to hold the election on the day designated. But the acting Governor refuses to do so, and has notified the Legislature of his determination.

A correspondent in the Owensboro *Monitor* insists upon people re-electing the Hon. Clinton Griffith to the Legislature, upon the ground that he is "wealthy and can afford to represent them," also, protests against having "clipped in the people's ears, from now till the first Monday in August, the great and heroic virtues of the legion of legislative sepiates."

The Legislative Race.
Elsewhere will be found the announcement of our worthy candidate, Mr. Thos. E. Gleeson, as a candidate to represent Hickman and Fulton counties, in the lower branch of our next State Legislature. He is one of our most enterprising farmers, a good business man, and we doubt not would make an excellent member.

Our worthy friend, Judge B. R. Walker, is also announced. He has served the people of Fulton in various public positions, and we can say for him, that he has been faithful to every trust.

Elsewhere will be found a call from "citizens," upon E. J. N. Hawkins, of Madrid Bend, to become a candidate, and we understand, though not by authority, that he will make the race. His high standing as a citizen will make him a formidable candidate.

The Late Tornado.
The tornado of last week proves to have been more serious along the line of the Memphis and Charleston railroad than at first reported. It passed from Helena to Pochontas at the rate of sixty miles an hour, destroying twenty-two houses in fifteen minutes, as was the case at Helena. One house was turned over, but nobody injured. Another dwelling was lifted from its foundation and carried into the Small Hatchie river. Another was nearly demolished, its occupants escaping through a window. The fences and houses for miles in the track of the tornado were destroyed. Several persons were badly injured. The loss to property at Pochontas reaches \$20,000. At Inka a number of houses were demolished and one church destroyed. A large store and warehouse opposite Helena, owned by Gov. Alcorn, valued at \$25,000 was utterly demolished.

A Deputy U. S. Marshal Shot at New Madrid.
Ellis T. Jenkins, Deputy U. S. Marshal Eastern District of Mo., and Deputy Collector 28th Revenue District, was shot and killed Wednesday night last while standing in the sitting room of the hotel at New Madrid. The fatal shot was fired through the window of the sitting room. Jenkins had, during the day, angry words with a son of the Sheriff of New Madrid county, and it is said pistols were drawn, but it is not known whether this man committed the deed. No arrest made at last accounts. Jenkins was a very dissipated man and the killing is supposed to be the result of a drunken row.

Railroad to Troy.
The people of Troy, Tenn., are canvassing the project of a railroad from that place to Troy Station, connecting it with the Paducah and Gulf road. The Paducah papers, suggest, on account of cheapness, that the Troyans should build a narrow gauge road. The correspondent says: "I think I am safe in saying there is no town of its size in Kentucky or Tennessee which equals Troy, in a business point of view. There have been four or five thousand bales of cotton passed from Troy to Hickman, Ky., this cotton season, which would have been purchased at the former place and shipped on the Paducah road, had this six or seven cities been finished, besides thousands of other commodities, which a large and industrious farming community raises."

The Frankfurt correspondent of the *Courier Journal*, referring to the balloting for Speaker of the Senate, says: "On the announcement of the result of the first ballot, which stood Holt 9, Carlisle 8, and Turner 14, Senator Turner arose in his place and appealed to the gentleman from Hopkins, who had put him in nomination to withdraw his name, in order that an organization might be effected and the business of the session proceeded with. Under the circumstances Mr. Turner's behavior was not only self-denying, but very hard some."

Quo Warranto Suits.
The numerous quo warranto suits against high office holders of Tennessee, for violation of the 14th amendment, having been suspended by the Federal judges on the ground of political excitement that would transfer the validity of legal tribunals to the hustings, has excited the friends of law and order to some extent, showing a want of confidence in the judgment of the people. It is urged, on the contrary, that the danger of popular opinion growing bold by local unanimity and rearing itself above and in defiance of the constitution of the land is made imminent by such action, which tends to weaken patriotic attachment for the fundamental law of the republic.

Card from Henry Campbell.
HICKMAN, KY. Feb. 25, 1871.
Editor *Hickman Courier*.—Courtesy requires that I should acknowledge the compliment paid me by a portion of my fellow-citizens, large or small, as the case may be, in publicly expressing the opinion that I might serve the county to advantage in the next General Assembly. I am proud even of the approbation and confidence of our fellow-citizens, and duly return my thanks for the honor done me.

The necessity of serving myself, however, prevents me volunteering to serve the public at this time, and I must under present circumstances decline to be a candidate.

Many, more competent men, solicited, are willing to accept the honor.

Yours truly,
H. CAMPBELL.

SELLING LIQUOR TO MINORS.—There is already a stringent law for the prevention of the sale of liquor to minors; and our Legislature has passed an amendment to that law imposing a penalty not only upon any one selling, but giving liquor to persons under age. This bill gives rise to considerable discussion, and several amendments were proposed, one of which, offered by Dr. Price, proposed the enforcement of the Maine liquor law in Kentucky.

The Bowen Bigamy Case.
The jury in the case of Bowen, the carpet-bag Congressman from South Carolina, indicted in Washington for bigamy, did not agree, there being eleven for conviction and one for acquittal. When they came into court on the morning of the 16th inst., and this fact was announced, the Assistant District Attorney suggested that the jury be sent back to their room. Judge Wylie said he would be very reluctant to discharge the jury if there was any chance of a verdict, but thought that nothing would be gained by sending the jury out again. And he added very significantly:

"If the prosecution failed to convict on the evidence they had produced, they could not convict on any evidence. If there was one honest juror on a panel he would be sufficient to defeat the conclusions of the rest. The testimony of the witnesses produced as witnesses by the defense ought not to be believed, and he saw no reason why the jury should disagree in this case."

Court of Appeals.
From reports of the state of Judge Robertson's health, it is not probable that he will be able to resume his duties at Frankfort soon. The Judge is now quite an old man, and, having been stricken with paralysis, his mental vigor and recuperative energy, it is not to be expected that he will speedily recover sufficiently to take his place upon the bench.

Judge Hardin, who has been suffering for some time with a severe attack of typhoid pneumonia, is fast recovering, and may now be pronounced convalescent.

Judge Lindsay, who has recently been absent from Frankfort on a visit to his home, returned on Wednesday last, and is in his usual robust health.

Judge Peters is in Montgomery, but is expected in Frankfort shortly.

It is probable the Court of Appeals will resume its sitting in the early part of next week.

Card from Thos. E. Gleeson.
AT HOME, FEB. 25, 1871.

MR. EDITOR:—In your paper for several issues past have appeared notices from different parts of Fulton county, asking that I would permit the use of my name as a candidate to represent Hickman and Fulton counties in the lower branch of our next State Legislature. In addition, many friends have personally urged me to announce my name. I am not insensible to these expressions of consideration, and therefore, to one and all, return my sincere thanks. In your next issue, you may announce my name as a candidate, subject to the decision of a Democratic County Convention, should one be held.

Yours,
THOS. E. GLEESON.

Call on D. F. M. Usher.
MR. EDITOR:—A number of voters of this county, think that if Esq. J. F. Hawkins, of Madrid Bend, will become a candidate for the Legislature, he will stand a good chance to be elected. "CITIZENS."

Farnsworth and Butler Throwing Mud.
In the discussion of one of the items for the Boston postoffice, Mr. Farnsworth, of Illinois, said a member of the House was interested in the granite contract for the building, and also had used for the decoration of his house costly mirrors belonging to the Treasury Department, one of which worth some \$10,000, had been broken in carrying backward and forward.

Mr. Fitch, a member of the committee on the subject of the granite contract for the Boston Post Office said that there was no evidence to connect Butler, of Massachusetts, with it. Mr. Butler denied using the mirrors and likened Farnsworth to a mud man chine throwing mud on him. Mr. Farnsworth declared that Butler's name had been connected with mirrors, and that he was interested in the granite contract for the Boston Postoffice. He said the first charge had been proved before a grand jury in San Francisco, and he had his hands the documents proving the record.

Terrible Results of the Hurricane.
SAN FRANCISCO, February 21.—A terrific hurricane last night, accompanied with rain, hail, loud thunder and lightning, produced greater destruction here than an earthquake would, and did much damage. A fire wall, twenty feet high and sixty feet long, was blown down upon a frame building, crushing it and burying fifteen or twenty persons beneath the ruins. Mrs. McDonald, wife of the watchman at the State Prison, her child, ten months old, a daughter, twelve years old, and Mrs. Hagan, all instantly killed and frightfully mangled. Several others were injured but not fatally. Three alarms of fire added horror to the night. There was more thunder and lightning in one hour than ever before heard in San Francisco altogether. Shipping in the harbor generally escaped without serious damage. The storm in the mountains was severe. Telegraph lines were damaged in all directions.

The Kentucky Legislature still liveth. It has defeated the Cincinnati Railroad bill. What it will do next of importance, we are unable to say. Adjourn, perhaps.—*Mayfield Democrat*.

We hope so, and may God, in His infinite goodness, put it in the heads of the people to send others in their stead. *Waverley Gazette*.

THE LATEST WAR NEWS.
PARIS, Feb. 21.—The *Rappel* says that a treaty of peace may be communicated to the Assembly Saturday next.

LONDON, Feb. 22.—After the declaration of peace the National Assembly will prorogue its sitting, and upon re-assembling will meet in Paris.

GERMANS GETTING IMPATIENT.
VANDERLIPS, Feb. 22.—The official *Moniteur* says France must decide for war or peace immediately. Delay deteriorates the strength of the Germans. France has long known the conditions whereon Germany is ready to conclude peace. These are based upon injuries formerly inflicted and guarantees for the future. Compared with the injuries the demands are moderate, and the longer the delay the harder will be the conditions. We hope this is understood at Bordeaux.

BERLIN, Feb. 22.—The *Provincial Correspondent* says the German demands are so distinctly confined to things indispensable that the French negotiators will have to decide quickly and firmly. The prolongation of the armistice for a day is dependent on the acceptance of the main German demands. The *Journal* predicts that next week, unless speedy decision be reached, peace will be restored.

500,000,000 THALERS.

The *Journal* de Paris says that the amount of war indemnity demanded by the Germans is 500,000,000 thalers. The *Rourse* is stronger. Rentes are quiet at 51 1/2.

DECHAUSEY ON THE WARPATH.
AMIENS, Feb. 21.—DeChausey has issued a proclamation to the army of the Loire which urges the troops to put the time of their enforced rest to profit and prepare for the struggle against the arrogant claims demanded by the Germans.

PAIDRIERRE MOVING.
LONDON, Feb. 22.—The *Daily News* says that Gen. Paidriere's troops continue to embark at Dunkirk or Cherbourg.

TROCHU WANTS PARIS TO IMITATE ROME.
A letter from Trochu condemns the proposed entry of the Germans into Paris. He says Paris has deserved the honors of war and advises her to shut her gates and let the enemy open them with cannon.

RUMORED SIGNING OF PEACE.
LONDON, Feb. 22.—A dispatch from Lille to day says it is rumored that peace has been signed on a basis which is the neutralization of Alsace and Lorraine. Business in North France is improving.

In consequence of negotiations between Favre and Bismarck during which the latter consulted the Emperor several times, the armistice has been extended till Sunday evening.

THIERS LABORING FOR A REPUBLIC.
PARIS, Feb. 22.—All the journals of the city approve the speech delivered in the assembly on the 19th by M. Thiers. A *Liberte* is convinced that Thiers is intent on loyal endeavor to found a republic.

SAN DOMINGO.
Speculations and Gossip About the Island.

NEW YORK, Feb. 21.—The *Tribune's* San Domingo correspondent writes that the Bazee Government denies emphatically that anycession of lands, any lease, or any advantages or special privileges whatever, have been granted to any person whatever in the United States or elsewhere. The mines are regulated according to the French law, that private owners are owners of the surface, and what's below the surface, provided there are no mines, or until authorization from the Government for such mines.

Bazee most emphatically says no one has been imprisoned or punished for operations against annexation. All who followed Cabral, January 31, 1867, did so on their own free will, and some few who have gone since were forced to go because they conspired against the public safety in favor of Cabral or Lupero. The debt of the Republic appears to be one and a half million dollars in gold, but the friends of Bazee say that such a great care is taken to reject spurious claims, a much larger amount will be required. It seems to be the desire of the Bazee Administration to pay the debts of the Government, and has legislative power to do so, and to reject claims that are just or spurious. None of the clergy have thus far made any protest against annexation.

Gratz Brown as a Democratic Candidate for President.

In some of the Democratic political clubs of this mercantile region, a fresh breeze appears to have been sprung on the situation of the country generally. There is no definite date to say how far the movement runs, but the proposition is less than for the Southern people to support any plan that may bring out Hon. Gratz Brown, of Missouri, as an independent candidate for the next Presidency.—Gratz Brown, the head and front of abolition Radicalism!

Nothing of special importance has been done in Congress during the last week. Frank Blair and Moses Austin have had a set to on the subject of the Indian ratification of the fifteenth amendment and Blair has declared his belief to be that the act to enforce the Fifteenth Amendment is unconstitutional. In the House the Judiciary Committee reconvened the passage of a joint resolution declaring that Wm. McGarrah is entitled to the big piece of land he has been trying to grab.

Swindling Concern.
We desire to caution newspaper men concerning a firm in Chicago, who have contracted for the advertising of "Warner's Business Remedy," and have been doing business under the name and style of "Strickland, Herman & Strickland." Recent circulars and notices that the concern has changed hands, and that the "Warner's Proprietary Medicine Co." Beware of them—they are profuse in promises, but when pay day comes are very hard of hearing—pay a cent to you yet—not even a note of more value if it let other ladies into the secret of dressing neatly on so small a revenue.

A PHILADELPHIA paper says: "After paying their board bills, our lady teachers have \$36 a year to dress with. They manage to dress very neatly. The rest—not even a note of more value if it let other ladies into the secret of dressing neatly on so small a revenue."

COTTON TAX.—The Supreme Court has affirmed the constitutionality of the cotton tax by a divided court.

\$30,000,000 Needed to Foot the Bill.
WASHINGTON, Feb. 20.—The House committee finished to day sundry civil expense bills, which call for about \$30,000,000. Soldiers of the war of 1812 fought four hundred thousand dollars; public building, five million dollars; censuses, one million two hundred and fifty thousand dollars; Department of State, one million two hundred and fourteen thousand dollars; charity, three hundred thousand dollars; survey of public lands, five hundred thousand dollars; United States Court expenses, two million dollars; indemnity States for expenses during the late rebellion, six million dollars.

From Canada.
TORONTO, Feb. 20.—The *Leader* commenting upon Howard's resolution offered to the United States Senate, recommending a high commission to provide for the cessation of British North America, says the proposition is conceived in an offensive spirit, and is, of course, quite inadmissible. We can assure our American neighbors that if they desire closer relationship with the Dominion than at present existing, they are taking the very best means in their power of preventing its accomplishment, because insolent propositions of this kind only provoke a bitter spirit of hostility in this country toward the United States.

WHEAT.—We regret to learn that the wheat crop in this county is looking rather badly at present, but hopes are entertained that as the season advances the prospect will become brighter for a good crop.—*Paris Intelligence*.

The Legislature of Kentucky has recently passed an act to authorize the St. Louis and Iron Mountain railroad company to extend their road through the city of Columbus in Kentucky to connect with the Mobile and Ohio railroad.

BEECH HILL SEMINARY.
Hickman, Kentucky.
THE PRINCIPALS, J. H. ROULHAC AND J. W. COWGILL, would respectfully announce to the public that the first session of their School will commence on MONDAY, March 13th, 1871. The School now organized is designed to be a permanent institution at this place. The building already erected is ample for the accommodation of one hundred pupils, and it is the purpose of the Principals to construct suitable additions with all modern improvements, in desks, fixtures, &c., sufficient for 150 scholars, with music room convenient for those who desire to sing. The school is under the charge of Mrs. Mary Duncan. With liberal encouragement the Principals hope soon to be able to find a regular and permanent college with ample accommodation for all who desire the benefits of a collegiate education in this section.

Tuition per session 4 months or 10 weeks, reading, writing, &c. \$10 00
Advanced readers, mental arithmetic, first lesson in geography, and composition. \$12 00
